Berlin, August 2021

Invitation for Submissions for the ICV Newcomer Award 2022

Dear professors,

The International Association of Controllers (ICV) and the Region Germany East of the ICV, are inviting submissions for the "ICV Newcomer Award".

The objectives of the ICV Newcomer Award are the promotion of young academics in the field of Management Accounting and the transfer of innovative and practicable ideas from the university environment to the active practice of Management Accounting where they can be applied by a huge number of professional Management Accountants.

Prizes are awarded for three master theses or exceptional bachelor theses that discuss Management Accounting innovations or the practical application of classical Management Accounting issues. A further wish is, that the applicant critical discusses the guidelines of the International Controller Association. Papers submitted at any European University after 30th April 2020 are accepted for this award.

Professors acting as a supervisor for the relevant theses may submit proposals for the ICV Newcomer Award 2022. We would like to invite you to submit theses worthy of this prize together with the complete application documentation. The deadline for submissions is **15th Mai 2022**. We welcome the submission of theses from any aspect of Management Accounting in either German or English.

The jury consists of Management Accounting practitioners and university representatives and its final decision will be based on a combination of scientific value, degree of innovation and the deductibility of implications for the practice of Management Accounting.

The total award of the ICV Newcomer Award is **EUR 4,000**, sponsored by **Haufe** and the **Haufe Akademie**. In addition, all prize winners will receive a personalized digital badge for individual use and one year's free membership with the International Association of

Controllers (ICV) which also includes a subscription to the Controller Magazin (delivery only in german-speaking areas).

The ICV Newcomer Award is planned to be awarded on an ICV event in September / October 2022. The dates will be finalised at the beginning of the 2nd quarter of 2022. We expect award winners to present their work to a broad audience, ideally with the support of their supervising professor.

The information sheet attached summarises all key data. You can also download the invitation for submissions and the application form at <https://www.icv-controlling.com/en/association/awards/icv-newcomer-award.html>

We're looking forward to your participation and are excited about reviewing the innovative and practicable Management Accounting ideas developed under your supervision.

Let's work together to promote young talent!

With kind regards,

Prof. Dr. Nicole Jekel
Chairman of the Jury
