

NEWS FROM THE BOARD / April 2022

Dear Colleagues,

from this year's board meetings we would like to inform you about the plans for 2022 and important updates for your ICV activities.

New: We formulated **topics of the year**, which we all fill with the ICV life. You know we need your cooperation. Each topic is supervised by a mentor who will contact you directly. Furthermore, our communication management is looking forward to receiving any expert content from you for the ICV use (c.zillmer@icv-controlling.com).

Our topics:

- a) **Sustainability** (Claudia Maron claudia.maron@datev.de)
- b) **Digitization and agile company management** (Matthias von Daacke mvd@icv-controlling.com and Markus Steiner m.steiner@icv-controlling.com)
- c) **Servitization** (Heimo Losbichler h.losbichler@fh-steyr.at)

Austria (Albert Mayr a.mayr@fh-steyr.at) was selected as an additional focus of activity.

We will fill these topics from the areas of expert work groups, work groups, sector work groups, wiki, publications, corporate memberships, speakers, ICV events, webinars.

You can find our **accumulated ICV know-how** in our [KNOW-HOW area](#) and in our [online shop](#). Please keep checking back and recommending.

The focus of the ICV social media channels is on **LinkedIn, Xing and Instagram**. The ICV thrives on communication – also to the outside world. Post-share-post-share on your professional social media channels - for the ICV! **New:** At the start of every month, your WG/expert WG/event/webinar appointments with a topic will be posted in our social media area.

Your ICV tools: our new Association's software 'VereinOnline' was presented in the last newsletter. This includes the Member Portal and other work opportunities for your ICV activities. The Portal is becoming more and more popular and liked, especially if you use it. You have already received the file/link with the instructions for use: **ICV Member Portal - Manual for Officials**.

New since last week: **we switched to M365**. And thus we provide you with a free software environment for your ICV activities. A **user guide: Office 365 Portal (e-mail management and MS Teams)** has also been prepared for you. Some of you, with a ...@icv-controlling.com e-mail account, were asked by the Office to activate your ICV account with new access data.

You can find **these two instructions and other ICV tools** (ICV PPT templates, people in the ICV, ICV image presentation, lifecycle posters, hashtags, LinkedIn instructions,...) in the VereinOnline Member Portal under DATA STORAGE:

Sehr geehrte ICV Funktionsträger,

nachfolgenden finden Sie die Verweise auf folgende Unterlagen/Informationen:

- Handbuch zum Mitgliederportal "VereinOnline"
- Informationen für AKL
- ICV Management Meeting / ICV Management Conference: Agenda, Vorträge
- Handbuch zum ICV E-Mail-Konto und zu Microsoft TEAMS

Dear ICV Officials,

below you will find the references to the following documents/information:

- Manual for the member portal "VereinOnline"
- Information for Work Group Leader
- ICV Management Meeting / ICV Management Conference: Agenda, Presentations
- Manual ICV e-mail account and Microsoft TEAMS

We **urgently need your support!** Not only do we need content for the annual topics, but also in the form of **your activities** in your work and industry work groups:

- a) On-site face-to-face and online meetings for ICV members (THE membership content)
- b) Completing the WG reports (Contact: claudia.maron@datev.de) (Up-Date Reporting on May 8)
- c) The ICV Controlling Wiki needs your contributions (Contact: karl-heinz.steinke@t-online.de) (we expect from our expert work groups that our wiki receives current definitions of terms for publication)

[For German-speaking]: We assume that you have already downloaded your Controller Magazin app on your tablet and/or smartphone and enjoy reading it. **New: The multi-user license for the app** will be available **exclusively for ICV corporate memberships** from the beginning of May. So that other employees from the member company could purchase the app at a special price from the ICV.

The second part of our **Management Conference** will take place on **May 8, 2022** in Munich. Sign up yet! It is a good time to combine our meeting with participation in the **General Meeting and the 46th Congress of Controllers**. As mentioned in the letter of invitation, 2 overnight stays at the WESTIN in connection with the visit to the Congress are covered by the ICV. The Management Conference language is English, General Meeting language – German, and the Congress language – German, but there are two speeches in English.

We **still need paying participants** for the 46th Congress of Controllers 2022 in Munich (www.icv-controlling.com/en/cc)! Please activate your network and advertise the Congress. Personal calls are promising, even if they are a little more time-consuming. This may also result in new personal potential.

The last two years have been a sabbatical for many activities, especially in areas where face-to-face encounters are necessary. Let's start again with new momentum to activate our ICV community.

We hope to see you all again at the General Meeting and the Congress to greet you personally.

Your Board

Prof. Dr. Heimo Losbichler

Matthias von Daacke

Carmen Zillmer

Malgorzata Podskarbi

Claudia Maron

Dr. Klaus Eiselmayer

Markus Steiner
